

India Urban Data Exchange –IUDX

 sanskritias.com/pt-cards/india-urban-data-exchange-iudx

- The Ministry of Housing & Urban Affairs has launched the 'India Urban Data Exchange', developed jointly by the Smart City Mission and the Indian Institute of Science Bangalore. It aims to solve various problems related to data of cities.
- It is an open-source software platform that **facilitates secure, authenticated and managed exchange of data between third party certification and authorized applications and other sources** between various data platforms.
- It acts as a seamless interface for data providers and data users, including urban local bodies, to share, request and access datasets related to cities, urban administration and urban service delivery.
- It provides a secure and reliable channel for data providers to share data, which has complete control over the data and its user. Privacy can be ensured through this.
