

One Health Consortium

 sanskritiias.com/pt-cards/one-health-consortium-34

- The Department of Biotechnology (DBT) has launched India's first 'One Health' consortium to monitor bacterial, viral, and parasitic infections of zoonotic and transboundary pathogens. **This is the first 'One Health' project of D.B.T.**
- This project will focus on developing additional methods for understanding the spread of emerging diseases in addition to the use and monitoring of existing diagnostic tests. **This is one of the biggest health programs launched since COVID-19 pandemic.**
- The consortium comprises of 27 organizations and led by DBT-National Institute of Animal Biotechnology, Hyderabad. Premier institutions like AIIMS Delhi, AIIMS Jodhpur and several wildlife agencies were part of this consortium.
- It is to be noted that **the concept of one health includes interrelationship between environment, animals and human health.** It emphasizes the need of holistic approach and collaborative efforts on national and international level to secure and achieve optimum health for man, animals, plants and environment.
